Evergreen Valley College

Completer and skills-building students at Evergreen Valley College were surveyed if they met one of the following criteria in 2016-2017, and did not enroll (or were minimally enrolled) in 2017-2018: earned a certificate of 6 or more units, earned a vocational degree, or earned 9+ CTE units. The survey was administered in early 2019 by e-mail, text message (SMS), and telephone. The survey addressed student perceptions of their CTE program, employment outcomes, and how their coursework and training relate to their current career. A total of 640 students were surveyed and 230 (36%) students responded: 45% by email, 42% by phone, and 13% by SMS.

- How satisfied are students with the education and training they received?
- How many hours per week are employed students working?
- How many students secured a job that is closely related to their program of study?
- How many months did it take for students to find a job?
What were the hourly wages of the students before training versus after training?

What were the hourly wages of transfer students and non-transfer students—before training versus after training?

Does the similarity between job and program of study influence wage gains?

More Key Results

$10.00 is the overall change in hourly wages after completing training—in dollars
63% is the overall change in hourly wages after completing training—in percentage gain
82% of respondents reported being employed for pay
52% of respondents reported transferring to another college or university
90% of respondents reported being very satisfied or satisfied with their training.

Conclusion

The results of the survey showed that completing CTE studies and training – whether or not a credential is earned, whether or not a student transfers – is related to positive employment outcomes. The preponderance of respondents are employed and are working in the same field as their studies or training. Notably, students realize a greater wage gain after completing their studies if they secure a job that is similar to their program of study.
