Completer and skills-building students at Lake Tahoe Community College were surveyed if they met one of the following criteria in 2017-2018, and did not enroll (or were minimally enrolled) in 2018-2019: earned a certificate of 6 or more units, earned a vocational degree, or earned 9+ CTE units. The survey was administered in 2020 by e-mail, text message (SMS), and telephone. The survey addressed student perceptions of their CTE program, employment outcomes, and how their coursework and training relate to their current career. A total of 349 students were surveyed and 95 (27%) students responded: 27% by email, 59% by phone, and 14% by SMS.

**How satisfied are students with the education and training they received?**

- Very Satisfied: 9.7%
- Satisfied: 38.7%
- Other: 51.6%

**How many students secured a job that is closely related to their program of study?**

- Very close: 36.5%
- Close: 40.5%
- Not close: 23.0%

**How many hours per week are employed students working?**

- 40+ hours: 10.7%
- >20 hours: 17.3%
- <20 hours: 72.0%

**How many months did it take for students to find a job?**

- 0: 18.2%
- 1-3: 36.4%
- 4-6: 36.4%
- 7+
What were the hourly wages of the students before training versus after training?

What is your current employment status?

More Key Results

$7.25 is the overall change in hourly wages after completing training—in dollars
41% is the overall change in hourly wages after completing training—in percentage gain
86% of respondents reported being employed
29% of respondents reported transferring to another college or university
90% of respondents reported being very satisfied or satisfied with their training.

Conclusion

The results of the survey showed that completing CTE studies and training—whether or not a credential is earned, whether or not a student transfers—is related to positive employment outcomes. The preponderance of respondents are employed and are working in the same field as their studies or training. Notably, students realize a greater wage gain after completing their studies if they secure a job that is similar to their program of study.

For 2020, current data was used when available; data collected on pre-pandemic outcomes was used when current data was unavailable.

*The option of “Furloughed” was only available to respondents who took the survey version initiated after the start of the COVID-19 pandemic.
