Los Angeles Mission College

Completer and skills-building students at Los Angeles Mission College were surveyed if they met one of the following criteria in 2017-2018, and did not enroll (or were minimally enrolled) in 2018-2019: earned a certificate of 6 or more units, earned a vocational degree, or earned 9+ CTE units. The survey was administered in 2020 by e-mail, text message (SMS), and telephone. The survey addressed student perceptions of their CTE program, employment outcomes, and how their coursework and training relate to their current career. A total of 789 students were surveyed and 228 (29%) students responded: 29% by email, 61% by phone, and 11% by SMS.

More Key Results

$4.99 is the overall change in hourly wages after completing training—in dollars

33% is the overall change in hourly wages after completing training—in percentage gain

73% of respondents reported being employed for pay

37% of respondents reported transferring to another college or university

93% of respondents reported being very satisfied or satisfied with their training.

Conclusion

The results of the survey showed that completing CTE studies and training—whether or not a credential is earned, whether or not a student transfers—is related to positive employment outcomes. The preponderance of respondents are employed and are working in the same field as their studies or training. Notably, students realize a greater wage gain after completing their studies if they secure a job that is similar to their program of study.
