

CAREER & TECHNICAL EDUCATION EMPLOYMENT OUTCOMES SURVEY

2023 COLLEGE REPORT

Fresno City College

Completer and skills-building students at Fresno City College were surveyed if they met one of the following criteria in 2020-2021, and did not enroll (or were minimally enrolled) in 2021-2022: earned a certificate of 6 or more units, earned a vocational degree, or earned 9+ CTE units (noncredit cohorts earned a noncredit vocational/CTE award or completed at least 48 CTE hours in that year). The survey was administered in 2023 by e-mail, text message (SMS), and telephone. The survey addressed student perceptions of their CTE program, employment outcomes, and how their coursework and training relate to their current career. A total of 3221 students were surveyed and 671 (21%) students responded: 39% by email, 46% by phone, 8% by SMS Link, and 7% by 2-way SMS.

How satisfied are students with the education and training they received?

How many students secured a job that is closely related to their program of study?

How many hours per week are employed students working?

How many months did it take for students to find a job?

What were the hourly wages of the students before training versus after training?

What were the hourly wages of transfer students and non-transfer students—before training versus after training?

Does the similarity between job and program of study influence wage gains?

What is your current employment status?

More Key Results

- \$11.50** is the overall change in hourly wages after completing training—in dollars
- 70%** is the overall change in hourly wages after completing training—in percentage gain
- 83%** of respondents reported being employed for pay
- 36%** of respondents reported transferring to another college or university
- 89%** of respondents reported being very satisfied or satisfied with their training.

Conclusion

The results of the survey showed that completing CTE studies and training – whether or not a credential is earned, whether or not a student transfers – is related to positive employment outcomes. The preponderance of respondents are employed and are working in the same field as their studies or training. Notably, students realize a greater wage gain after completing their studies if they secure a job that is similar to their program of study.
